

***Quick Start***

**Wireless Mesh Repeater**

**EB-M-REP**

***Before Getting Started***

This Quick Start provides high level installation instructions. Visit [eyedro.com/support](http://eyedro.com/support) for complete product setup guide, warranty information, user manuals, videos, and various online support resources.

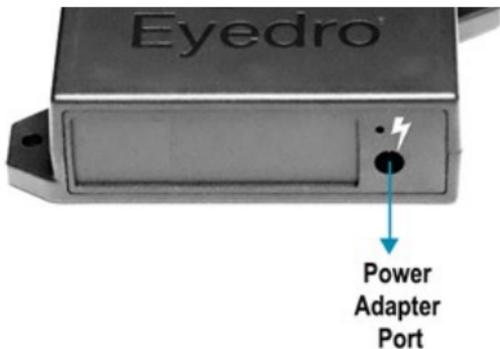

**This product is intended for indoor use only.  
This product contains no user serviceable components.**

## 1. Record Device Serial Number (located on module label)

## 2. Install Hardware

- i. Find an acceptable installation location between the Eyedro sensor device (or cluster of devices) and the desired gateway module. Be sure to follow **Wireless Mesh Best Practices** described in the online product guide.
  
- ii. Connect power adapter to the Eyedro repeater module.

## 3. Connect to the Internet through Mesh Gateway

- i. Ensure your Eyedro Wireless Mesh Gateway (***sold separately***) is powered up and actively connected to the internet.

## 4. Add Device to your MyEyedro User Account

- i. Go to **my.eyedro.com** to create your online account (or log in if you have an existing account).
- ii. Add the device using the Device Configuration page. You will need the serial number you recorded in Step 1.
